

MUHAMMAD HASSAN ALI

Frontend & MERN Stack Developer | Teacher | Fresh Graduate

ABOUT ME

I am a dedicated MERN Stack Developer and Teacher with four years of professional experience in a university environment. I specialize in developing responsive and user-friendly web applications using MongoDB, Express.js, React.js, and Node.js, with a strong passion for modern web technologies and clean, efficient development practices. Alongside development, I have experience in teaching and mentoring students in computer science and programming, which has strengthened my communication, leadership, and presentation skills. I hold a Bachelor of Science in Computer Science from Lahore Garrison University, where I gained practical experience through academic projects and professional work. I am a motivated and hardworking individual eager to learn new technologies, enhance my technical expertise, and contribute effectively as both a Developer and Educator.

EDUCATION

Matric | 2018-2020

Completed Matriculation from Allied School where I built a strong academic foundation and developed an early interest in technology and learning.

Quran Studies | 2018-20222

Completed Quranic studies from Faizan Online Academy, along with basic learning of Fiqh and Deeni Masail. Gained understanding of Quran recitation, Islamic teachings, and fundamental religious knowledge.

Intermediate | 2020-2022

Completed Intermediate from MAO Collage along with gaining basic teaching experience and developing strong communication and student-handling skills.

Bacholar of Science in Computer Science | 2022-2026

Completed BSCS from Lahore Garrison University, gaining strong knowledge in software development, programming, databases, and modern web technologies along with practical project experience.

WORK EXPERIENCE

pharmacist | 2018-2022

Worked in a pharmacy, gaining practical experience in medication handling, customer service, and basic pharmaceutical knowledge.

Sale & Purchase | 2018-2022

Worked in sales and purchase operations using Abuzar Software, managing inventory records, billing, and daily transaction entries. Gained experience in software-based data handling and basic business operations.

Religious Studies Teacher| 2020-2025

Taught at a madarsa for 2-3 years, where I both learned and taught Islamic studies, including Quranic education and basic Deeni knowledge. Gained valuable experience in teaching, communication, and student guidance.

SKILLS

- Pharmacy Assistance & Customer Handling
- Teaching
- Student Guidance & Mentoring
- Communication & Presentation Skills
- Html/Css
- Javascript
- Responsive Web Design
- React.js
- MERN Stack Development
- Backend Development & RESTful APIs
- Database Management (MongoDB)
- Problem Solving & Debugging
- Error handling
- Sales & Purchase Operations (Abuzar Software)
- Teamwork & Time Management

LANGUAGES

- English – Fluent
- Urdu – Native
- Punjabi – Native
- Arabic – Basic

Learning Grammer School| Aug 2025 – Sep 2025

Taught Matric-level students in a school, gaining experience in classroom teaching, lesson delivery, and student guidance.

Unique Science Academy | 2025-2026

Taught 11th and 12th class students in an academy and gained experience in teaching, lesson planning, and student guidance adapting teaching method according to students learning abilities

Remote Full Stack Developer | Oct 2025 – Nov 2025

Completed a remote internship at SkilifyZone, where I worked on Full Stack development tasks using MERN Stack. Gained hands-on experience in building web applications, working with APIs, and improving frontend and backend functionality in a real project environment.

Interests

- Learning new technologies
- Reading tech-related content and articles
- Web development and coding
- Problem solving and logical thinking
- Teaching and knowledge sharing
- Exploring modern software and frameworks
- Continuous self-learning and skill improvement

Projects

1.Semester Projects (6th Semester)
Completed class projects during 6th semester, focusing on web development and programming concepts using HTML, CSS, and related technologies. Gained practical experience in implementing academic knowledge into real-world projects.

2.Final Year Project (FYP)
Developed a final year project using React.js and MongoDB, focusing on building a dynamic and responsive web application. The project included frontend development in React and backend/database integration with MongoDB, providing hands-on experience in full-stack web development and real-world application building.

Certifications

Skilskilifyzone

Remote Full Stack Developer | Oct 2025 – Nov 2025

Completed Full Stack Developer certification from SkilifyZone, gaining practical knowledge of MERN Stack development including frontend, backend, and database integration.
